

ARAT Navigation mount

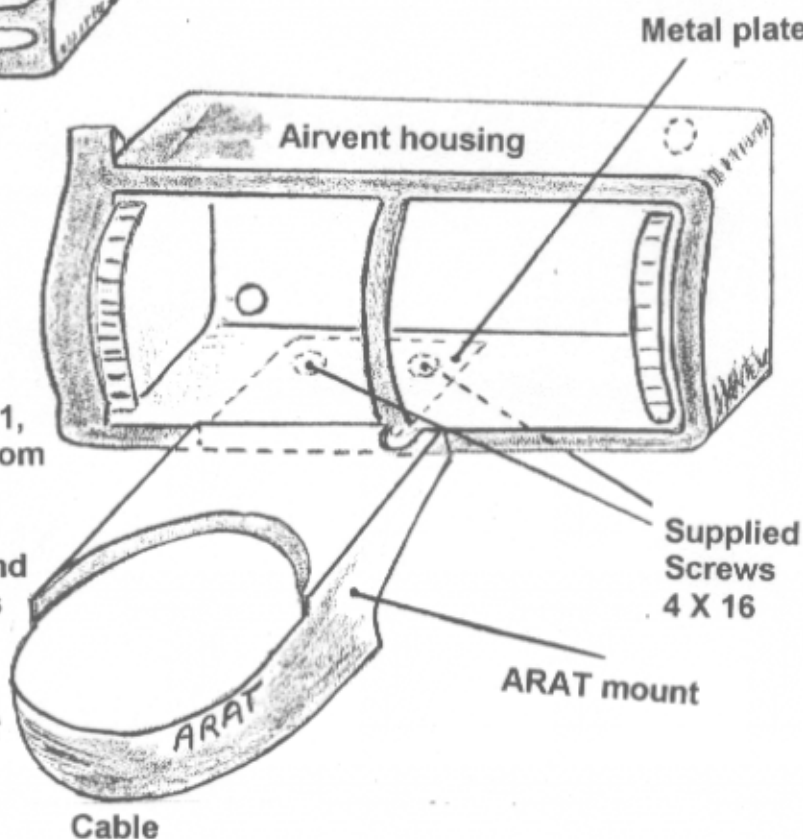

Type: OPEL / VAUXHALL
Omega 2000 onwards model

Part No: NS1009.3

Installation instruction

1. Remove both airvent assemblies from the housing by prising them both off from their locating pivots
2. Remove the screws (x2) at POINT 1, and remove the airvent housing from the dashboard
3. Place the ARAT mount to the contours of the airvent housing and secure it with the supplied screws
4. Replace the airvent housing and both airvents into the dashboard

1. The display cable can be placed under the airvent housing to the pre-formed channel in the navigation mount, you can cut and remove a small channel in the lip of the airvent housing, and feed the cable to the display
